

News Release (TSX: TIO)

TIOMIN TURNS INTEREST IN COPPER-GOLD PROJECT INTO CASH

TORONTO – February 22, 2010: Tiomin Resources Inc. ('Tiomin' or the 'Company') (TSX: TIO) has converted its 49% contributing equity interest in the Pukaqaqa copper-gold project in Peru into cash and, if Pukaqaqa enters production, receives additional cash payments and a Net Smelter Return royalty ('NSR').

Under the terms of agreement with its joint venture partner, Compañía Minera Milpo S.A. ('Milpo'), Tiomin receives US\$5,571,228 now and will receive a further US\$1,428,772 upon providing Milpo with a standard tax certificate from Canada Customs and Revenue Agency. Tiomin will receive a further US\$4 million if the project reaches commercial production and an additional US\$4 million one year later. In addition Tiomin receives a 1% NSR on all mineral production from the current property package if the quarterly LME copper price averages US\$3/lb or less and a 2% NSR above US\$3/lb. The NSR also applies to any properties subsequently acquired by Milpo within 15km of the boundaries of the existing property package.

Robert Jackson, President and CEO of Tiomin said "This is a good deal for Tiomin. It converts an open-ended funding liability into cash today and cash tomorrow while we retain the upside of increased resources and higher metal prices. We are bullish on copper. In our opinion, the market gave us zero credit for Pukaqaqa and these imminent cash payments now represent about C\$0.015 per share, or a 50% premium to the current share price. We think Pukaqaqa has the potential to grow substantially and that Milpo will be significantly motivated to develop the project now that it has 100% of the equity. In previous press releases we have detailed the resources of the project which exceed two billion pounds of copper and more than 500,000 ounces of gold. Peru holds about 30% of the world's copper resources and is noted for the large size of its copper projects. Pukaqaqa has the potential to join the large-scale league. Finally, we are confident that we can monetize this NSR at the point of production. Vaaldiam Resources Ltd. shareholders should take careful note as they vote on our proposed acquisition".

About Tiomin Resources Inc.

Tiomin is a mining company traded on The Toronto Stock Exchange with a focus on the exploration, development and production of minerals. Tiomin recently announced that it intends to acquire Vaaldiam Resources Ltd., a Brazil-focused diamond producer, by a plan of arrangement. Tiomin has significant funds available for its projects, a strong management team, and a very experienced board. Tiomin's strategy is clear: to create long term value by realizing a return on the Company's current projects as well as seeking an accretive transaction that marries Tiomin's cash with producing or near-producing assets.
